

Give Items a Second Life

EXTEND, DONATE, REPURPOSE

Repurpose old clothes

Turn old clothing or fabric scraps into cleaning rags, reusable bags, or get creative with other upcycled crafts.

Repair broken items

Broken zippers and missing buttons on clothes or non-working electronics can often be fixed easily. Check online or at a local repair café for tips and assistance.

Host a clothes swap with friends

Refresh your wardrobe for free and keep textiles out of landfills.

Donate gently used clothing and décor

Your unwanted items can help people in need through shelters, churches, and local charities

Recycle worn-out textiles

Items too worn to donate, including bedding, can often be taken to textile recycling centers.
